Note: Purpose is to provide information helpful to MARINE SAFETY (wind speed/direction, wave height/period, air pressure). Reports of **only air or water temps** usually omitted. Wind speed column may contain **gust** speeds, rather than sustained winds. Information resource NOAA's National Data Buoy Center. Data not verified. **NOTE: Will not go through manual steps to compose this product when only a handful of ship reports available for 6 hr - 1000-mile radius.**
